FOR IMMEDIATE RELEASE

CMT SUPPLY CHAIN STATEMENT WITH REGARDS TO THE 2019 NOVEL CORONAVIRUS OUTBREAK

To Whom it May Concern:

Recently, the epidemic situation of new coronavirus (2019-nCoV) has become increasingly severe. Considering the impact of coronavirus outbreak, we understand our customers' needs to conduct a full investigation of their supply chain in order to ascertain the effects of potential disruptions.

Please be advised that at this time, the supply chain for Custom Machine & Tool Co. remains unaffected by the outbreak of the coronavirus (2019-nCoV). The vast majority of our raw materials are domestically sourced. We have been in contact with our vendors for any purchased component parts (bearings, etc.) and have confirmed an adequate supply of inventory in the short term.

This statement will be updated if there are any changes to report.

Sincerely,

Marc Sematones
General Manager
Custom Machine & Tool Co., Inc.
